Course Leaders

RICHARD HAYWOOD

Head of Technical

Richard has worked in the brewing industry since 1984, starting in the Duke Street labs at Bass. During his career he has worked in every aspect of brewing from Quality Manager at a maltings plant, production management in brewing, processing, canning and bottling as well as QA. He is also a qualified master brewer.

Now with Murphy's since 2017, he oversees the labs, health and safety as well as the QMS for the site and is always looking for more efficient ways of working to further improve many aspects of the business in order to serve our customers better.

When not at work he loves sampling our customers products at a weekend and spending time with family and his teenage kids. He also has a season ticket for Derby County, which is a little perilous for someone who now works in Nottingham!

Course Leaders

DEIMANTE NAKVOSAITE

Quality Management Systems Coordinator

Deimante has gone from strength to strength at Murphys, joining us in a new role overseeing technical administration and now moving on to coordinate our internal quality management.

Deimante's previous experience includes managing areas of technical administration and quality management for Riverside Bakery and Addo Food Group, this coupled with the considerable understanding of our technical systems she now boasts and the excellent organisational and people skills she injects into everything she does, her move to coordinate our Quality Management Systems has been a no-brainer!

When she's not streamlining our QMS and administrative systems, Deimante loves cooking Gordon Ramsay recipes and a glass (or two) of Prosecco is her beverage of choice when a special occasion calls.

Things you need to know

- The course length is dependent on the number of questions asked throughout the day.
- We thoroughly encourage participation and networking throughout the event, so please feel free to ask questions, bring your business cards and your brews to share at lunch with the other delegates.
- There will be a tour as part of the day so you can learn more about the Simpsons Malt factory and internal procedures.
- After the course, you will receive a digital certificate of participation, a goodie bag and all files sent via we transfer link.
