

TECHNICAL INFORMATION SHEET:

SUPAVIT Z - YEAST NUTRIENT

PRODUCT NAME:

SUPAVITZ

PRODUCT CODE:

SVITZ

COMMODITY CODE:

29369000

PACKAGING:

25 KG

Description

Supavit Z is supplied as a free flowing pale brown to yellow crystalline powder, which is a formulated blend of organic salts, vitamins, amino acids and trace elements along with an approved organic source of nitrogen. Supavit Z is designed to ensure correction of nutrient deficiencies in wort and improve fermentation.

Benefits

- Improves rate of yeast growth.
- Prevents slow fermentations
- Useful in low nitrogen worts
- Concentrated in powder product, economical in use

Guidelines for use

- Check that the product is within its shelf life before use
- Carry out optimisation trials to obtain ideal dosage rates for the best results
- Do not add too much of the product or over-vigorous

HEALTH & SAFETY INFORMATION

Refer to the **Safety Data Sheet (SDS)**

fermentation will results

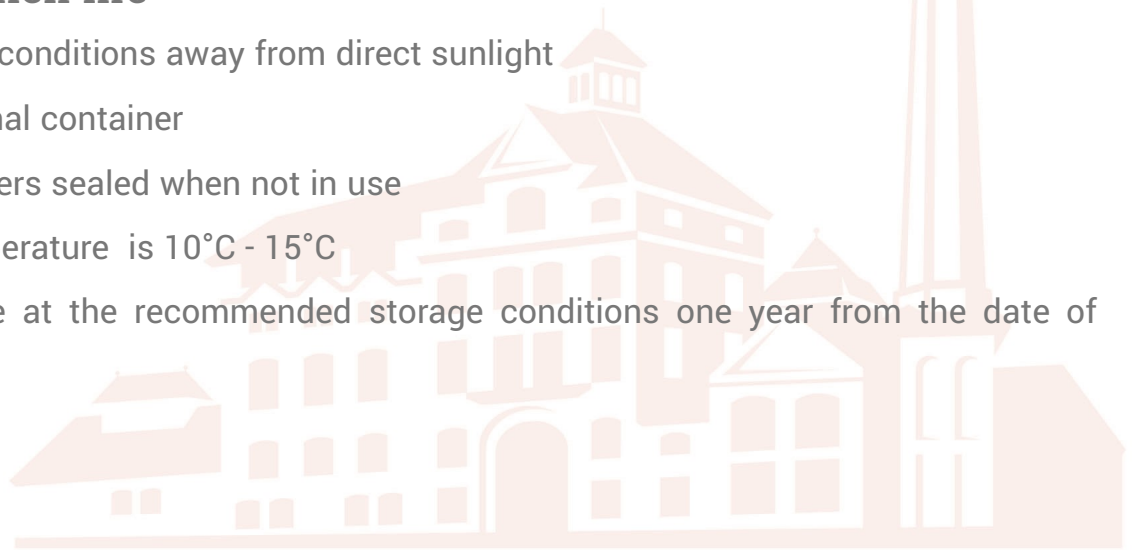

- Read the Safety Data Sheet prior to use

Application and rates of use

The product can be mixed into the yeast slurry about 30 minutes before pitching into the wort, or alternatively mixed with a small volume of wort and added to the fermenter. It can also be added to the kettle at the end of the boil. Supavit Z should be added at a rate of between 3.5 g and 4.5 g per hectolitre of wort. A high rate may be required for a short period, after which the rate of addition can be significantly reduced. With regular use, low rates can be effective in preventing nutrient deficiencies.

Storage and shelf life

- Store in cool conditions away from direct sunlight
- Keep in original container
- Keep containers sealed when not in use
- Storage temperature is 10°C - 15°C
- The shelf life at the recommended storage conditions one year from the date of manufacture
