# TECHNICAL INFORMATION SHEET: SUPER F

## Description

PRODUCT NAME: SUPER F PRODUCT CODE:

MS\_SF

28391900

SUPER F is a blended formulation that has been specifically designed for the rapid sedimentation of yeast, protein and other haze forming particles producing bright beer..

## Benefits

PACKAGING: 5, 25, 200, 1225 KG

**COMMODITY CODE:** 

- Helps achieve excellent beer clarity
- Vegan friendly product
- Rapid action finings to be used in maturation and conditioning tank
- Can be used in cask
- Low dosage rates, concentrated formulation
- Super F is stable at ambient temperatures with a long shelf life
- Suitable for breweries worldwide

Quality, Consistency & Support

## Application

Super F can be added direct to DPV or during transfer of beer from fermentation vessel (FV) to conditioning tank. It can also be added direct to cask.

## **Rates of Use**

Rates of addition are typically within the range of 70ml per hectolitre up to 200ml per hectolitre. The exact rate will depend upon whether or not kettle finings have been used in the Brewhouse, the addition of auxiliary finings, the degree of yeast flocculation, yeast count, pH, temperature and the residence time on chill at the end of fermentation and the strength of the beer. Optimisations should be carried out to determine the dosage rates more accurately.

Optimisation guides can be obtained from Murphy and Son Ltd. Yeast count and viability kits can also be purchased from Murphy and Son Ltd.

### Storage and Shelf Life

Store away from bright sunlight.

Recommended storage between 2-35°C.

Do not allow the product to freeze.

Keep in original container.

Shelf life is a minimum of 9 months from the date of manufacture.
