

# Remuage 1

VINIFICATION - CLARIFICATION

## Oenological applications

**REMUAGE 1** is a preparation of sodium bentonite specifically selected for riddling (both manual and automatic).

**REMUAGE 1** helps to create compact sediment in bottle and assist its movement down the bottle during riddling. It has a gentle mode of action producing brilliantly clear wine.

The efficiency of **REMUAGE 1** is improved when used in conjunction with BOOSTER REMUAGE.

## Instructions for use

Add **REMUAGE 1** just before the tirage after sugar and yeast have been added.

It is important to continue mixing the tank during the bottling operation.

## Dose rate

- 7 to 8 cL/hL of wine
- If **REMUAGE 1** and BOOSTER REMUAGE are used together the following dose rate is recommended :
  - BOOSTER REMUAGE : 2 cL/hL
  - **REMUAGE 1** : 6 to 8 cL/hL

## Packaging and storage

- Packs of 1 L and 10 L.

Store in a dark, dry environment which is well ventilated, at a temperature between 5 and 25 °C.

The recommended use by date is marked on the packaging.
