

# TECHNICAL INFORMATION SHEET:

## KEGBRITE SOLUTION

**PRODUCT NAME:**  
KEGBRITE SOLUTION

**PRODUCT CODE:**  
KEGSOL

**COMMODITY CODE:**  
28391100

**PACKAGING:**  
25KGS

### Description

Kegbrite is a specially formulated solution for cask and keg cleaning suitable for use on containers of all types.

### Benefits

Alkaline formulation deals with even hard dried yeast and hop residues.

Low foaming—suitable for CIP systems and automatic cask/keg washers.

Easy rinse, non-corrosive, caustic-free formulation

### Guidelines for use

When used in keg and cask washers, the optimum operating temperature for the detergent stage of the cycle should be 75°C. Product should be rinsed with a clean water.

When containers are very dirty, increase concentration.
