

# FININGS NATURO F

## TECHNICAL DATA SHEET

### Description

Naturo-F from Murphy & Son is a vegan-friendly liquid fining added to fermented cider or wine to remove yeast cells from suspension (sedimentation). It contains a naturally occurring chitosan (from mushrooms) effective in the fining of wine, cider and vinegar.

### Benefits

- A traditional, vegan and natural product
- Effective in a wide variety of wines, ciders and vinegars
- Causes production of large flocs, which settle rapidly to leave a bright supernatant with compact bottoms
- Rapidly fines yeast
- Reduces the need for cold crashing, filtration or centrifugation
- Safe and easy to handle

### Principle

The prime function of Naturo-F is to remove yeast cells from suspension after fermentation. Being densely positively charged, the chitosan molecule rapidly attracts negatively charged yeast cells to form aggregates that are too large to remain in suspension and that therefore precipitate from the cider/wine/vinegar.

#### PRODUCT CODE

NATURO-F

#### COMMODITY CODE

3913900099

#### PACKAGING

5 Kg, 25 Kg

#### STORAGE

Keep in original container sealed when not in use.

#### Temperature

Recommended storage temperature is 4°C - 15°C.

Do not allow the product to freeze.

#### Location

Store in cool dry conditions away from direct sunlight.

#### Shelf Life

At the recommended storage conditions, nine months from date of manufacture.

## Application and Rates of Use

After fermentation has finished, the wine/cider, should be racked off, or decanted from any sediment, into a clean, sterile container, and mixed thoroughly and allowed to stand for up to 24 hours. During this time, a precipitate will form, and settle out to leave a clear product.

### Rates of use:

The exact rate for a given liquid will vary according to your setup, the recipe and the types of yeasts and adjuncts used. Naturo-F should be added at the rate of 1 to 5 mL/L.

## Guideline for use

- Check that the product is within its shelf life before use
- Carry out optimisation trials to determine the correct rate of use
- Must be mixed well before use
- Read the Safety Data Sheet prior to use
