

DESCRIPTION

Protect Iso Propyl Wipes is a ready to use product consisting of an absorbent non-linting cloth impregnated with a 70% Propan-2-ol solution. The product is suitable for use in Food, Dairy, Beverage, production and other high care environments. The wipes are particularly suitable for organic production areas or for cleaning delicate items.

The Wipes are 100% Polypropylene with a laminate structure that is designed to hold liquid and give a high strength cloth with very low linting. The wipes are impregnated with an antibacterial solution that rapidly dries to leave a residue free surface.

Protect Iso Propyl Wipes are compliant with the Biocidal Products Regulation and a dossier for authorisation in Products Types 2 and 4 has been submitted to the regulatory authorities.

USE INSTRUCTIONS

Protect Iso Propyl Wipes can be used to dry disinfect sensitive equipment, for example weighing scales, computer terminals and packing machines.

Protect Iso Propyl Wipes are suitable for use where disinfection with no residues is required, e.g. Organic Production.

After use, ensure that the tub is closed; failure to do this will result in evaporation of the Propan-2-ol and loss of efficacy.

Protect Iso Propyl Wipes are not designed for disinfection of hands.

Note:- It is advisable to validate cleaning and disinfection by an appropriate post disinfection swabbing regime.

BENEFITS

- Quick drying solution.
- Non-linting.
- Highly absorbent.
- Dries to a residue free surface.
- QAC free.

BIOCIDAL EFFICACY

Micro-organism	Contact Time
Bactericidal Efficacy	
EN1276	1 Minute
EN13697	1 Minute
EN16615	1 Minute
Yeasticidal Efficacy	
EN1650	1 Minute
EN16615	1 Minute

TECHNICAL DATA

Wipe Appearance	Impregnated, dark blue wipe
Wipe Material	Laminate Polypropylene of Spunbond and Meltblown fibres
Wipe Size	195 mm x 195 mm
Paper Weight	20-21 gsm
Number of wipes per bucket	1,500
Number of wipes per pack	3,000
Odour	Alcohol
Solution Specific Gravity	~ 0.86 @ 20°C
pH	6.5 – 7.5
Flash Point	20°C
Storage Temperature Range	-10°C to +40°C
Shelf Life	Minimum of 2 years under normal conditions (when stored in closed containers)
Holchem Classification	

PRODUCT COMPATIBILITY

The wipes are safe for use on surfaces of all common materials of construction. Frequent use without the use of gloves will result in dryness and cracking of skin. Care should also be taken that printed instructions may be removed by the solvent power of Propan-2-ol.

SAFE HANDLING & STORAGE

COSHH places a duty on employees to assess and control the risks of using hazardous substances. The Safety Data Sheet provides the relevant information about the product to assist with this assessment. This product is 'Highly Flammable'; it must be stored in a suitable store and away from sources of ignition.

PACKS

The product is available in the following pack sizes:

Box of 2 x 1500 Wipe Buckets

GENERAL

For accident, emergency and health & safety information refer to the Safety Data Sheet for this product.

This product is registered in the UK with the National Poisons Information Service.

Whilst every effort is made to ensure that the information given in this product information sheet is accurate it is given without guarantee, since the conditions of use are beyond our control.
